## REFLECTIVE leather tassel

Be visible. **Be stylish**

Safety is important. But so is style!

Unique and handmade reflective tassels made from natural leather. These original and practical accessories is a perfect way to illuminate your handbag or a backpack and will make you visible in the dark and protect you. These reflective tassels can be both - a safety product at night and a fashion accessory during day. That's why you don't have to take it off.

Ideal for wearing yourself or giving as a present!

Made with 3M™ Scotchlite™ Reflective Material  
Leather Certified EN 471

I am a leather artisan.

My accessories are made using a mix of modern and traditional leatherwork techniques.  
Mix of these techniques resulted in creation of handmade, innovative and practical products - reflective leather tassels.

They are not only reflecting light. They are original and stylish. What is the most important is that they do not have be detached from bags as they are good looking in daylight as well. Your handbag or backpack will be decorated and you will be safe after dark.

Be visible. **Be stylish**
